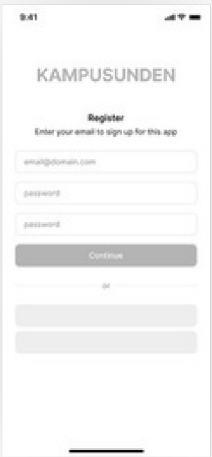
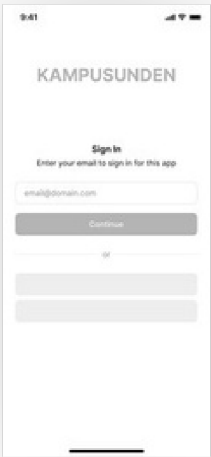
Registerpage



The registration flow enables new users to create an account by setting up their email and password credentials securely.

Signpage

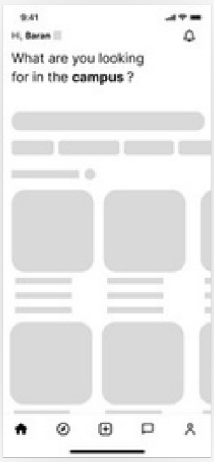


A streamlined authentication screen that offers email login along with social sign-in options for a quick entry into the app.

Marketplacepage

This screen allows users to discover and browse various products available in the campus marketplace through organized categories and a search bar.

Homepage



The home screen welcomes users with a personalized greeting and a search interface to quickly find campus-related services or items.

AddnewProductpage

A dedicated form where users can easily list their items by adding photos, selecting categories, and providing details like brand and price.

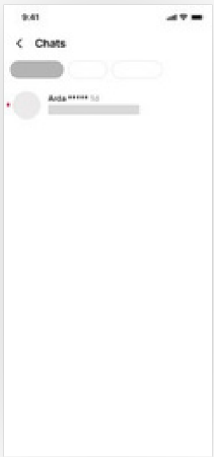
Product Detailpage

The product detail page showcases high-quality images and comprehensive descriptions for a specific listing, such as a Macbook Air.

Chatpage

A real-time messaging interface that facilitates direct communication between buyers and sellers, including approval status for transactions.

Messagepage



The message inbox provides a list of ongoing conversations, allowing users to keep track of their interactions with others on the platform.
